Professional Summary

Software Developer with 1+ years of professional experience in web and desktop application development, including React.js, JavaScript, and AWS integrations. Hands-on experience building and deploying full-stack applications using Angular, TypeScript, NestJS, Node.js, REST APIs, and PostgreSQL. Skilled in frontend development, backend API integration, JWT authentication, database management, and cloud deployment. Additional professional experience developing C++ applications using Qt and VTK.

Technical Skills

Languages: JavaScript, TypeScript, C++, SQL

Frontend: React.js, Angular, HTML5, CSS3, Tailwind CSS

Backend: Node.js, NestJS, Express.js, REST APIs, Socket.io, JWT Authentication

Databases & ORM: PostgreSQL, MongoDB, Prisma ORM

Cloud & Deployment: AWS (Cognito, S3, DynamoDB, Lambda, API Gateway, CloudFront), Vercel, Render, Neon

Tools: Git, GitHub, Docker, Postman, VS Code, Agile, CI/CD

Desktop & 3D: Qt6, VTK

Professional Experience

Software Developer, MachOne Software Solutions Pvt. Ltd. – Chennai, India — Jun 2025 – Present

- Develop and maintain responsive web application features using React.js, JavaScript, HTML5, and CSS3, implementing interactive user interfaces and reusable frontend components
- Integrate AWS Cognito, Amazon S3, and DynamoDB into web application workflows for secure user authentication, cloud storage, and data management
- Develop and enhance desktop software using C++, Qt6, and VTK, implementing structural modeling, interactive 3D visualization, and engineering analysis workflows
- Troubleshoot and resolve application issues through analytical problem-solving, debugging, and functional testing to improve software reliability and maintainability
- Collaborate with developers on feature implementation, code maintenance, Git-based version control, application testing, and software release processes

Projects

TaskFlow – Task Management Application | Angular, NestJS, TypeScript, PostgreSQL, Prisma — Live Demo | GitHub

- Built and deployed a full-stack task management application with Angular, NestJS, REST APIs, and PostgreSQL using Prisma ORM
- Implemented JWT authentication, role-based access, task CRUD operations, and a Kanban workflow; used Docker for local PostgreSQL development

Real-Time Chat Application | React.js, Node.js, Express.js, MongoDB, Socket.io — Live Demo | GitHub

- Developed a responsive full-stack chat application using React.js, Node.js, Express.js, MongoDB, and REST APIs
- Implemented real-time messaging using Socket.io and secure user authentication using JWT

Education

SRM Easwari Engineering College, Bachelor of Engineering in Biomedical Engineering – Chennai, India — Oct 2020 – Apr 2024

- CGPA: 9.17 / 10.0

Certifications

Full-Stack Web Development (MERN), Udemy – Dr. Angela Yu — Certificate of Completion

AWS Cloud Practitioner (CLF-C02) Exam Prep, Udemy – Stephane Maarek — Certificate of Completion
